

New Mixing Instructions For Deco Beauty Bleaches!

Our Bleaches have changed to make your work more efficient.

Artègo's new bleach line is made to lift higher and lighter than our previous bleach family. To achieve similar results utilizing the new products mixing ratios are formulated to 1:2, 1:3 and as much as 1:4 (utilizing lower volumes).

- 8+ Levels of lift
- Natural Ingredients added for better conditioning
- **ONLY USE 10 or 20 volume developer (DO NOT USE 30 OR HIGHER VOLUME)**
- Check hair every 5-10 Minutes, **No longer than 40 mins max.** (it will process quicker)
- Do not use Creative Control Cream
- Only use Lovely Light Bleaching Paste for “On scalp Bleach”
- Shake before each use.
- Use Artègo Good Society Every Day Shampoo to cleanse the hair prior to any chemical procedures to remove surface impurities.
- **Please be mindful of:** residual minerals that can be present in hair (such as calcium, magnesium, iron, copper and salt etc.) these may cause damage to the integrity and health of the hair. **(if minerals are present, you will notice the foil heat up).**

Multiplex will be your best insurance for bleaching the hair.

Multiplex will be a great counterpart for Deco Bleach. Especially for clients with thin or fragile hair. Multiplex can be used with bleach or by itself, it's benefits include:

- Welds keratin bonds that have been damaged during previous treatments.
- The result is visible and immediate: quality and hair structure are improved.
- Ensures the safety of any technical service.
- Prevents and protects from Damage caused by aggressive chemical treatments.
